To obtain a challenging Frontend/Software Designer position where my creativity, problem-solving skills, and experience in designing engaging and user-friendly interfaces can be utilized to enhance user experiences and drive business objectives.

I am writing to express my interest in collaborating with your company as a freelancer. With over 4 years of experience in creating websites using the WordPress CMS, I have successfully completed several projects both as part of a team and independently.

## Skills and Expertise

### WordPress:

- Themes and Plugins: Proficient in creating websites autonomously, purchasing themes on Themeforest, and utilizing necessary plugins.
- Hosting and Domains: Experienced in managing hosting, domains, and databases with Webempresa.
- File Management: Skilled in handling files via FTP with FileZilla.
- Visual Modelers: Expert in using Elementor Pro, Avada, Divi Builder, and Gutenberg.
- Design Collaboration: Collaborate with designers using Figma and Adobe XD.
- Translations: Utilize WPML for multilingual sites.
- Advanced Plugins: Proficient with Jet Engine and the Crocoblok suite for medium to large projects.
- Site Migrations: Efficient in project migrations using All in One Migration.
- Other Plugins: Experience with Slider Revolution, WP Mail SMTP for mail server management, WooCommerce, YayCommerce for multiple currencies, and Dokan for multi-vendor setups.
- Social media and Messaging: Manage social networks and messaging clients such as WhatsApp.

#### React JS:

- Development Tools: Utilize Vite and Create React App for project compilation.
- Styling: Proficient in Tailwind CSS for styling.
- Deployment: Deploy and preview projects using Vercel.
- Interface Development: Develop interfaces using Figma and Adobe XD.
- State Management: Expert in useState, useEffect, useContext, Redux Toolkit, and Redux Persist for state management.
- Async Storage: Handle async storage efficiently.
- Routing: Manage routing and navigation with React Router.
- API Integration: Perform API calls using fetch and Axios, and test APIs with Postman.
- Form Handling: Use React Hook Form for form handling.
- Advanced Techniques: Studying Suspense, Lazy Loading, and Portals. Currently developing a project with Next.js.

#### Education:

- Degree: Computer Science Engineer
- Institution: University of Computer Sciences (UCI), Havana
- Years: 2014-2019

#### Professional Experience:

I have worked with several companies as a developer, including Byt, Tecopos, 2mas2websites (a Spanish company), and Doffleini.

#### Ongoing Projects:

Cubaphototrips.com

Tiendacentro.net

AutoTallerCastell.com

Tuhogarenlacostatropical.com

Awardsofhappiness.com

I am confident that my skills and experience make me a strong candidate for your projects. I look forward to the opportunity to discuss how I can contribute to your team.
